About Me

I am a High School student from Clovis High. I'll soon graduate in a year and enter college. I want to express myself.

Other

I work very well by myself but I'm also good with others. I will always try to contribute things in a group and be a leader in some instances. I listen to advices from my superiors and friends. I'll also give suggestions and my provide thoughts.

Education/Experiences

I'm currently a junior in Clovis High School, I'm a passing student and have impressed peers and teachers. I've also taken the Center for Advanced Research and Technology (CART), presenting projects and be apart of a huge group showcase. My experience at school and CART activities have given me skills and discipline for my future life.
